1 . Tips

Welcome to use the GPS TRACKER products of phone series produced by EELINK ;

1. Traffic, SMS, Calls and other SIM card service fee charged by operators.

A SIM Card Needed

(Open GPRS/Call ID of SIM Card,do not support CDMA2000 card)

2. GPS positioning is based on the GPS satellites in space to locate, try to use the product outdoors, near the window, in order to ensure the normal use of the product and precise positioning.
3. If there is no GPS signal, positioning through base station, positioning accuracy will be reduced (depending on the number and density of base station nearby).
4. Standby time depends on the GPS signal , GSM signal status, traffic, etc., a combination of using factors determines the standby time.
5. The following conditions will affect the product features:
 - ①No SIM or SIM card arrears
 - ②GPS / GSM no signal
 - ③battery runs out
